Specification

On page 5, Example 1, line 1, "n article" should be changed to "an article".

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Buriks et al., {J. Org. Chem., Vol. 52, No. 23, 1987, pp. 5247-5254}.

Buriks et al. disclose applicants' claimed compound. See page 5249, formula 19.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 2-4 are allowable over the prior art of record.

A process for moisturizing skin which comprises contacting the skin with an effective moisturizing concentration of a compound conforming to the following structure:

Art Unit: 1621

was neither found to be obvious nor anticipated by the prior art of record.

The prior art does not teach or suggest the presently claim process for moisturizing skin which comprises contacting the skin with the novel moisturization agent.
